

State Rules Register Alert

April 16, 2019

You are receiving this Alert because you are a subscriber to the
State Rules Register at CRAHelpDesk.com

Georgia State Criminal Records

It has come to my attention that if you want criminal records from the State of Georgia, your **Disclosure and Authorization** needs to include the language "**Criminal Information**". The use of "*Criminal Records*" is not sufficient to release the records.

Therefore, you may want to alter your Disclosure and Authorization for all reports or just those you need from Georgia state records.

Best Regards,

Larry Henry
